

## ***About Us - Mission and Vision***

**SwapN> GO.org** assumes that you understand the terms that we will present below. In the same way we want users to feel comfortable with the platform, for the moment we have the modality of **Cripto-loyalty, S-broker and SchangeMoney**; The essence is that users feel that they have control in their hands of the business. In the same way we will give informative tips in the session News / Help to clarify doubts; The intention is to help you ensure the final exchange.

Our business system is designed so that you in any part of the world can access through our webApp, learn to interact with models and markets of cryptocurrencies and propose offers that reach interested people.

We respect your privacy, we are a non-profit organization, we maintain the system through the contribution of the users who operate and work using the platform. **SwapN> GO.org** makes only interested people get involved in the business, that's why we protect your identity, repudiate harassers, and spammers.

### ***Move in to SwapN> GO.org***

What is the benefit ? **WE ARE NOT TO TRADE FORTRESS.** Publish all the offers you want during one (1) hour, make agreements and business with the interested ones that consult you and contact your mail without paying any commission to the project, build your personal network of trust and change of currency with the people who make business.

It is a bit fast the publication process as well, as everything is fluctuating the sales-purchase processes published on the board last exactly one (1) hour. So it's a quick game, all your movements in the micro-bag are saved so that you keep a record after one hour of emission will be automatically deleted.

## ***Terms of use of the service***

The user accepting the terms and conditions that will be presented to you, you will be responsible for the service module that you choose, it applies to all the activities carried out by you within the system.

### ***User:***

1.- When logging in (the user) enters a system of supply and demand, the prices are calculated using references, the value on the asset selected is set by the user.

2.- The negotiations that this system may generate and its results are the full responsibility of the users and not of the project, freeing us from any duty in front of any agreement between users.

3.- **SwapN> GO.org** samples the referential value of the **BTC / USD MIOTA / USD LTC / USD TRX / USD XRP / USD** price in the global market; The value of the cryptocurrency as the final price is placed by the users and not by the administrators of this project, in such a way that the local economy of any country is not influenced with respect to the US dollar.

4.- The user must enter the basic information required in the registration form such as: Name, Surname, email, password, profile picture, country, Exchange method; Please note that your user to perform the login is the email, the image of you (profile) must be updated as it will be used as a presentation card for your negotiations. We do not accept erotic profile images or showing any type of nudity in the profiles.

5.- It is openly explicit that users who use the system for any other activity other than making legitimate exchange offers - buying and selling currencies are marked to block the account without prior notice. We do not want to be involved in any illegal or illegitimate activity.

6.- The negotiations are hand in hand. The procedures that you want to implement to confirm the data and monetary movements remain on your side (users).

### ***Negotiation time***

1.- The time of its publication on the board is one **(1)** hour, you can only make "3" publications on all the boards offered, after completing this window of time and having new activity in the system, your previous offers are eliminated and the user issuing retrieves his three **(3)** publications in each one of the boards.

### ***Premium***

1.- If you are a premium customer, we can keep your offers for a longer time on the board. The platform is supported 24/7.

### ***Security***

1.- Your password is encrypted by an algorithm and then stored in the database.

### ***How to Contact the Support team?***

1.- If you have any questions contact us, we will be giving news in the same way by the **feedback@swapngo.org**.
